

## About My GW

Hello. How are you doing?

Today, I'd like to tell about my GW.

As you know, I couldn't go anywhere because of coronavirus.

So, I mostly stayed at home.

On the first day, I helped my father take care of his vegetables.

He is good at growing vegetables because he is an agricultural teacher.

I love tomatoes which he grows very much.

Then I studied Japanese history for three days.

Especially, I read some books about Meiji era.

They told me about many famous people in that era.

On the final day, I joined a drinking party on online with friends.

It was my first time!

We talked about our future, and that made me a little nervous about it...

On the whole, however, I had a good time.

I want to try again soon!
