

Diary of Golden Week

May 2nd

Today I cleaned my room all day.

I like cleaning because it makes me refreshed.

I threw away things I didn't need anymore,
and tidied up the bookshelf.

I got a little tired but I was happy because my room became very clean.

May 3rd

It was a rainy day, so I stayed home all day.

I read a book and watched some videos on YouTube.

I like watching animations in English.

There are many interesting animations online.

I think it is very convenient that we can watch them for free.

May 4th

I'm living alone now, so I went to see my family in Unzen
and stayed there for three days.

There my father, mother and grandmother live together.

I talked with them and had a great time.
